

Oslo, July 6, 2006

In the second quarter of 2006, Visma achieved revenues of MNOK 562 (473). The total revenue growth of 19% was achieved through organic growth of 8% (9% in local currencies) in addition to acquisitions made during the last 12 months. The organic growth in the second quarter is explained by a healthy market in the SME sector and Visma's investments in marketing. EBITDA in the second quarter was MNOK 63 (59), EBIT was 42 (41), and EBT was 42(41). For the first half of 2006 revenue was MNOK 1149 (941) (+22%), EBITDA MNOK 144 (119) and EBIT MNOK 102 (83). Net cash flow from operations after tax was MNOK 182 (181) during the first half of 2006.

Accounting principles

This report compares the company's reported figures for the corresponding period in 2005 (in brackets), and is prepared according to IAS 34 (IFRS).

Comments on the results in the second quarter of 2006 – Group

Visma achieved 8% organic revenue-growth (9% in local currencies) in the second quarter. The strong organic growth from the 1st quarter of 2006 continued into the 2nd quarter 2006, but the timing of Easter had a negative impact on growth and profitability in the 2nd quarter. Even though the board considers organic growth to be important in creating value, with the new ownership, there will be more focus in the future on improving margins.

The EBITDA margin in the second quarter in Software was 14,1% (15,6%), in Services 8,8% (9,0%), while Financial & Productivity Services achieved 12,3% (17,8%). Visma has capitalised MNOK 1,6 R&D expenses in the 2nd quarter of 2006. During the second quarter of 2006 Visma ASA declared a dividend of MNOK 802 to its sole shareholder, Engel Holding AS. In addition the share premium fund of Visma ASA was reduced with MNOK 38. MNOK 44 of the dividend was paid in cash to Engel Holding AS during the second quarter.

For the first half year net cash-flow from operations after tax was MNOK 182 (181). DSO (Days of Sales Outstanding) were 36(41) days which is a considerable improvement over 2005.

The holding of 12% of shares in Exense ASA were divested of during June 2006.

Visma Services

With MNOK 168 in revenues Visma Services achieved organic revenue growth of 3,6% (4,6% growth adjusted for currency changes) in the second quarter of 2006. Fewer working days due to Easter are the reason for lower growth compared to the 1st quarter and EBITDA margins were at 9% as in the second quarter last year. Visma Services has focused on achieving organic growth through increased sales and marketing efforts, but also on improving margins.

In the second quarter, Visma Services Finland did well with organic revenue growth of 18% in local currency and a solid EBITDA margin of 22%. Visma Services Sweden achieved less growth than expected, but new orders make the 2nd half of the year promising. Services Denmark continued its strong performance with revenue growth of 18% in local currency.

For the whole 1st half of 2006 Visma Services improved EBITDA margins from 9,2% to 10,2%.

Visma Software

In the second quarter of 2006, Visma Software achieved organic growth of 9% (10% in local currencies), which is at the high end of organic growth achieved in the last couple of years. Including acquisitions, revenue growth was 27%. The EBITDA margin was 14,1% (15,4%) on revenue of MNOK 331 (260). Recurring revenues from annual license and support agreements amounted to MNOK 174 (140) in the second quarter. This represents a growth of 24% and is 52% of the total revenue in the second quarter. Consulting and implementation increased by 54% to MNOK 64,1. Hardware/software from third parties increased by 54% and, which explains why margins are somewhat lower compared to last year. Software Sweden achieved solid growth of 19,6% in local currency, showing that there is still positive momentum in the Swedish market for Visma after the re-branding campaign in 2006. The EBITDA margin in Sweden was 19,1% (18,4%). Software Finland achieved organic revenue growth of 0,5% in local currency and EBITDA margin of 10,6%. After a weak start to the year, Software Finland had an all-time high new orders in June, and the foundation for a stronger 2nd half of 2006 has been laid. EBITDA margin in Software Norway was 12,4% (13,5%) and growth reached 41%. In Software Denmark, the EBITDA margin was significantly improved to 15,5% (-0,3%). In Norway Visma doubled its revenue in the micro-segment in the market through the increasingly popular Avendo product-line.

Visma Financial & Productivity Services

With revenues of MNOK 62,8 in the second quarter, the revenue growth is 18%. Organic revenue growth was 14,1% in local currency. The EBITDA margin was 12,3%. Visma Ajourlt is still not achieving satisfactory margins. Actions have been taken to reduce the cost base in 2006 and these will take effect in the second half of 2006. In the first half of 2006, the Swedish debt/invoice collecting unit, Visma Collectors, achieved EBITDA margin of 25% and organic growth in local currency of 12%. Visma Collectors in Norway achieved organic growth of 20% and EBITDA margin of 13%. As the general markets for debt-collection services in Norway and Sweden show stagnation, even decline, the strong growth of Visma Collectors indicates that Visma is gaining market-share. Visma Personnel achieved a strong growth of 15% in a competitive market for temp. and recruitment services.

The future

The Nordic business climate is positive, with healthy growth in all markets. The positive trends are expected to continue throughout 2006. In 2006, the Easter vacation is in April compared with March in 2005. This had negative impact on the second quarter of 2006, but still healthy performance was delivered. In 2006 Visma will continue its activities to sustain organic growth, but at the same time focus on improving margins. Visma still sees significant opportunities for acquisitive growth. This is supported by a committed acquisition facility. In co-operation with the new owners, HgCapital, Visma is looking for acquisition targets in the Nordic region, and Northern Europe in general.
