A Transformative end to the year as the BPO Division was Divested and Several SaaS Acquisitions Completed

HIGHLIGHTS, FOURTH QUARTER 2016

- Revenue of NOK 2 120 million, an increase of 10,9%
- EBITDA of NOK 507 million, an increase of 20,0%
- Revenue from SaaS Software solutions grew by 25,6%, year-on-year in the quarter
- Continued strong after-tax cashflow with 51% growth for the full year 2016 vs. 2015
- The divestment of the entire BPO division was completed during the first week of December.
- Four pure SaaS SMB software businesses were acquired during the quarter

Visma had another strong quarter with excellent top-line revenue and profit growth. Total revenue growth was 10,9% while EBITDA improved with 20,0% over Q4 2015 to reach NOK 507 million, yielding a very strong EBITDA margin of 23,9%.

Revenues in the Enterprise segment grew by an impressive 17,2% and Revenues in SMB grew by 7,4%, compared to the fourth quarter a year ago. SaaS and SaaS transactions continue to be the strongest driver of organic growth in Visma and Software SaaS Solutions annualized repeatable revenue grew by 25,6% during the quarter.

Visma completed the sale of the BPO division during the quarter. In line with the strategy to re-invest in the core software business, Visma completed the acquisition of five software companies during the fourth quarter. Four of these were 100% pure SaaS SMB software businesses. These included Dinero, the leading entry-level accounting software in Denmark, TransPA, the leading workforce management software for the trucking sector in Sweden, Movenium, the leading time-tracking software for the construction sector in Finland and Sweden, as well as, ValueFrame, a PSA SaaS Software for the professional services sector.

KEY FIGURES

*In December 2016, Visma sold its BPO division. Historical numbers have been restated to reflect the sale

FINANCIAL REVIEW – GROUP (FOURTH QUARTER 2015 IN BRACKETS)

Revenue amounted to NOK 2 120 million (1 911) and EBITDA to NOK 507 million (423) in the fourth quarter of 2016. Revenue increased 11,0% over Q4 2015.

Group EBIT amounted to NOK 298 million in the fourth quarter (237), whereas net gain from associated companies amounted to NOK 0.5 million (1.6). Net financial items were NOK -58 million (-69). Consequently, profit before taxes was NOK 241 million (170). Taxes amounted to NOK 1.8 million (10.9), and net income from continuing operations resulted in NOK 239 million (159) in the fourth quarter.

Cash flow from continuing operations after tax amounted to NOK 511 million (394) in the fourth quarter 2016. Cash inflow from investments was NOK 2 823 million (-51) in the quarter, which is fixed assets and software R&D and investments in acquired businesses. At the end of the fourth quarter, the cash position of Visma was NOK 5 867 million (2 915).

Equity amounted to NOK 8 294 million at the end of the quarter (4 164), corresponding to an equity ratio of 47,3% (30,5%). Interest bearing debt amounted to NOK 5 295 million (5 422). The debt-facilities have maturity dates in the 4th quarter 2019.

COMMENTS ON SELECTED KPIS

Visma is experiencing good traction on the SaaS product portfolio.

It is impressive that SaaS Annualized Repeatable Revenue (ARR) has grown by 25.6% year-on-year in Q4. Now, 75% of our ARR is indeed from true SaaS solutions. Also SaaS customer contracts have seen a strong high-growth development. Visma has over 550 000 customer contracts, of which 300 000 are for SaaS products. The group's fastest growth is also on the SaaS contracts, which grew by 20.9% year-on-year.

At the end of Q4, 6,0 million e-invoices were transported through Visma's e-invoicing hubs. The ultimate objective for Visma's software products and solutions is to make the traditional paper invoice redundant. All Nordic countries are eager to do more SaaS invoicing and we are about to launch an e-invoicing service for our e-economic customers in Denmark.

MARKET OUTLOOK

The Nordic markets, where Visma has 97% of revenues, continue to be stable and have above average growth rates compared to Europe overall. The public finances in the markets where Visma operates are in good shape. Norway and Sweden (73% of Visma revenue) have very strong public finances. Norway has stabilized and recovered from the oil sector volatility and Sweden continues its strong growth. Denmark and Finland are also feeling general upswing in the economy. Regardless of the macroeconomic environment there are plenty of opportunities that will allow Visma to continue to achieve good organic growth. Visma's core businesses in these markets generally continue to take market shares and show solid growth.

The demand for SaaS services is steadily increasing. Visma continues to invest considerably in SaaS and to lead the transition to SaaS in Visma's core SMB Software products and services. Visma is steadily launching new SaaS products. Services like procurement, accounting, payroll, debt collection and software consultancy are increasingly based on SaaS, and Visma is in the middle of a process of moving all our activities to a SaaS model. Our customers increasingly prefer subscription type of cost-models vs. large up-front investments.

Visma's R&D focus and acquisition strategies are concentrated on SaaS. Visma continues its strategy of organic and acquisitive growth and Visma expects to accelerate the acquisition pace the coming quarters.

Visma Software SMB is the largest business area, contributing 48% of the Revenue and 58% of the EBITDA in the fourth quarter of 2016.

OWNERSHIP

Visma is currently jointly owned by three leading international private equity groups. HgCapital 36.5%, KKR 28.6%, and Cinven 28.6%. A broad management group holds approximately 6% of the shareholder equity in Visma. In addition to the stability of the main owners, the main owners have co-investors comprised of some larger Nordic and international pension funds. This constellation contributes to a stable ownership situation.

RISKS

Visma is exposed to the general economic climate in the countries where the company operates. However, the business risk is limited by the company's diversified customer base and a reasonably priced, high-quality portfolio of products and services. Although Visma is also involved in some very large IT projects, Visma believes associated risk is well counter-balanced as around 50 % of total Visma revenue is generated in the well-diversified SMB segment.

DISCLAIMER

This report contains forward-looking statements that reflect management's current views with respect to future events. All such statements are subject to inherent risks and uncertainties, and many factors can lead to developments deviating from what has been expressed or implied in such statements.

EBITDA and Operational Cash Flow

SMB

Comments on the fourth quarter

Visma SMB reached 100 000 SaaS contracts in Sweden in Q4, after passing the same milestone in Denmark earlier in 2016. The entry-level SaaS solutions that include Tripletex, e-economic, Visma eAccounting, SpeedLedger and now also Dinero overall acquired over 12 000 net new customer contracts in the quarter reaching 240 000 in total.

The pure SaaS mid-range offering and hybrid services in Visma.net continued to grow in both customers and users with a solid pipeline for Visma.net Financials and Logistics, further solidifying Visma's strong standing among SaaS SMB customers in the Nordics.

Product development focus in Q4 has been delivering high-quality SaaS solutions for our core segments and upgrades for the large existing on-premises customer bases, giving them cloud and automation benefits as part of the transition to SaaS. Investments in SaaS continue to outpace investments in on-premises solutions for the quarter, with expansion in sourcing locations improving delivery capability.

Operational focus has been on integrating recent acquisitions, including Dinero, Valueframe, TransPA, and Movenium. Significant growth trends in our segments are the empowerment of our customers employees through mobile apps, accounting office's transition to SaaS solutions, online HRM solutions and electronic invoicing integrated with ERP.

Visma's Business Transactions (Accounts Receivables Management and eInvoicing) have, in Q4, monetized strongly on bundling services with Visma's own ERP systems. The strong momentum in uptake of eInvoicing throughout the Nordics in combination with efficient and tight integrations between ERP and debt collection spark the growth.

- Business automation for accounting practices

Enterprise

Comments on the fourth quarter

Transition to cloud services are a prioritized area for Enterprise. Currently, 35% of the CMRR is on true cloud services, and 55% of the R&D resources are working on cloud services.

Visma is delivering 5,3 million payslips every month on multiple Visma payroll solutions per December 2016. Our true international payroll cloud solution, Visma.net Payroll, is in production with customers in the Netherlands, Norway and Sweden. The first Visma.net HRM package was released December 2016, and is going to be launched for small customers in Norway in January 2017. At the same time the Visma.net Payroll, in a hybrid model with Visma Talent, was released for the Dutch Healthcare segment. Six large Healthcare customers have been implemented

In December Visma Flyt PPT - a cloud service for children with difficulties in learning - was released. Already 16 municipalities have signed contracts, including Oslo Municipality. The same platform will be the base for future cloud services within welfare. With the acquisition of Gatsoft, Visma now has a leading offering of Workforce Management Software across the Nordic countries. Following the Gatsoft acquisition, the Swedish payroll product Personec P will be integrated with Gat Workforce Management. This will certainly increase Visma's competitiveness towards the Swedish local governments.

StarSoft Oy was rebranded to Visma InCommunity Oy during November. As part of this, the Wilma product was redesigned in line with Visma Nordic Cool. Wilma has hundreds of thousands of users and this will increase the Visma awareness in the Finnish market. The technology and domain competence from the acquired Irish school company School Thing Ltd. has become an integrated part of the Vigo project for all upper secondary schools in Norway. In December, the Vigo project received customer acceptance for Release 1.

- Business intelligence and dashboards for municipalities and large accounts

Custom Solutions

Comments on the fourth quarter

Results for the Custom Solutions in Q4 were very positive - above both forecast and plan. Compared to last year Custom Solutions had strong growth and improvements of results in Q4. Growth YoY, Revenue grew 44,1% whilst EBITDA grew 107%.

All countries were performing well - especially Norway has had an exceptional come-back since last year, but also Sweden had great improvements of results in H2 especially in Q4. Results from Norway, Denmark and Finland have been quite strong all year. Nearshore Development Center in Lithuania is performing very well with very high customer satisfaction and they are now opening up for business with external customer through MIND4iT in Denmark. Strategic acquisitions of two Business Intelligence companies, in Finland and Sweden, were successfully completed.

The Division had important wins of new customer contracts in Q4 in all countries. Especially the software solutions business picked up nicely with a breakthrough for the new cloud solutions Visma Case and Visma Addo.

In general Custom Solutions had a successful 2016 with a remarkable growth and results above plan.

Retail

Comments on the fourth quarter

This has been a fantastic software quarter and the software sales confirm that we have a strong value proposition and a very competitive product suite not only in the Nordics but also in the international market. All large verticals (Food, Pharmacy and Specialized trade) had important cases closed in the quarter.

In October, the Norwegian health authorities authorized sale of prescription medicines online. A Norwegian pharmacy chain launched this with the help of Visma PharmaSuite Online.

International software sales made another breakthrough in new markets during Q4 with good outlook for further geographic expansion. The pipeline for 2017 is strong and with the recent closings we expect the awareness of our strong offering will reach even more customers.

Our continued work and research study with Thought Leadership in the topic of Customer Insight & Loyalty has generated great PR and publicity in industry media during Q4.

We've been finalizing details regarding our arrangement for our customers and prospects attending the world's largest annual retail congress NRF Retail Big Show in January. We are getting more attention than ever before, and we are collaborating with both the Swedish and Norwegian trade organizations Svensk Handel and Virke. This year's trip will include store tours at newly opened Westfield World Trade Center and Bloomingdale's exclusively for our group. For the first time, we are also present as exhibitors (in HP's booth) with world premiere of our POS and Retail ERP software on HP's product X3 on windows 10 mobile.

- Retail hardware and IT infrastructure services
- Customer insights solutions and loyalty systems

IT & Hosting

Comments on the fourth quarter

Hosting

Visma Hosting is offering domain and web hosting services to more than 330 000 customers in several European countries under the two brands Loopia and Active 24. The market is highly competitive and the international trend with market consolidation continues in Q4.

In June we finalized the re-structuring project including migration of tens of thousands of customers, closing our Norwegian data center and reducing the Norwegian organization. As a result of this, we see a considerable EBITDA run-rate improvement in Q4 and H2-2016 compared to H1-2016 and 2015.

Our main focus in Q4 has been on product development preparing to launch additional services and features during H1-2017.

IT Operations

Our machine learning area is gaining momentum. Both within the Visma group and from companies outside Visma we are invited to both present and deliver process automation based on artificial intelligence and machine learning. In this quarter we started internal Visma projects to automate support deliveries.

Our focus on security continued to increase in Q4. A growing number of threats and attacks means that a competent and available security service is crucial to safekeeping our business. We prevented numerous security attacks in this quarter and we managed to quickly and safely recover services which experienced disruptions our outage.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

NOTE 1 – ORGANISATION AND BASIS OF PREPARATION

General information and organisation

Visma (the Group) consists of Visma AS (the Company) and its subsidiaries. Visma AS is a limited liability company, incorporated in Norway. The address of its registered office is Karenslyst allé 56, N-0214 Oslo, Norway.

The Visma Group's business consist principally of the Small and Medium, the Government and Large Accounts and the Business Process Outsourcing Business.

Visma's condensed interim financial statements for the fourth quarter of 2016 were authorised for issue by the board of directors on February 9th 2017.

Basis of preparation

These condensed interim financial statements are prepared in accordance with International Reporting Standard IAS 34 *Interim Financial Reporting* as issued by the International Accounting Standards Board (IASB) and as adopted by the European Union (EU). The condensed interim financial statements do not include all the information and disclosures required by Financial Reporting Standards (IFRSs) for a complete set of financial statements, and these condensed interim financial statements should be read in conjunction with the Visma annual financial statements. A description of the significant accounting policies applied is included in the Visma annual financial statements for 2015 and applies to these condensed interim financial statements, except for the adoption of new standards and interpretations as of January 1, 2016.

The condensed interim financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair statement of the financial position, results of operations and cash flows for the dates and interim periods presented. Interim period results are not necessarily indicative of results of operations or cash flows for an annual period. Certain amounts in the comparable periods have been restated to conform to current period presentation.

The condensed interim financial statements are unaudited.

Changes to significant accounting policies in the current period

There have been no significant changes to accounting policies in 2016 compared to the annual financial statements for 2015.

Use of estimates

The preparation of financial statements in conformity with IFRSs requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis, considering the current and expected future market conditions. A change in an accounting estimates is recognised in the period in which the estimate is revised if the revision affect only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

NOTE 2 — SEGMENT INFORMATION

Visma reports its business through five reporting segments, Small and Medium Business (SMB), Enterprise, Retail, Custom Solutions and IT & Hosting. These aggregations has its basis in similar economic characteristics, the nature of products, services and the type and class of customers and the market their customer operates in.

Transfer prices between segments are set at an arm's length basis in a manner similar to transactions with third parties. Visma AS and national holding companies are disclosed under Group HQ.

NOTE 2 — SEGMENT INFORMATION continued

Segment data for the fourth quarter of 2106 and 2015 are presented below. The measurement basis of segments profit is Net operating income. Deferred tax assets, pension assets and non-current financial assets are not allocated to the segments.

NOTE 3 — BUSINESS COMBINATION

A total of NOK 415.1 million in acquisition payments were made during the fourth quarter.

Software BPO Division

On December 1st, Visma sold its BPO division to Hg Capital. Following the divestiture, Visma will further strengthen its software focus.

Software GLA Division

On October 10th, Visma acquired the Norwegian workforce management software provider Gatsoft. Through the acquisition, Visma enters the Norwegian WFM market. On December 15th, Visma acquired Amesto Logistics AB, a Swedish provider of healthcare logistics software. On December 15th, Visma also acquired the Finnish BI consulting company Cox. Through this acquisitions, Visma strengthens its BI offering in Finland.

Software SMB Division

On November 16th, Visma acquired the Danish SaaS company Dinero Regnskab ApS. Dinero provides freemium accounting software to Danish entrepreneurs. On December 7th, Visma acquired TransPA AB, a SaaS WFM solution for the transport sector. On December 12th, Visma acquired ValueFrame, a Finnish provider of SaaS project management solutions. On December 15th, Visma acquired Movenium Oy, a Finnish provider of SaaS solutions to the construction industry. These acquisitions adds to Visma's increased SaaS software focus.

The fair value of the identifiable assets and liabilities as at the date of acquisition were:

NOTE 4 — Discontinued Operations

On December 1st 2016, Visma sold its BPO division to HgCapital. Visma BPO is the leading provider of outsourced accounting, payroll and HR services to 20 000 businesses in the Nordic region. BPO consists of the following legal units: Visma Services Norge AS (with subsidiary Visma Services VAT), Visma Personnel AS, Visma Personnel Management AS, Visma Employee Management AS, Kollektor AS, Visma Services AB, Visma Employee Management AB, S4F Progress AB, Finland Kollektor Oy, Visma Services Oy, Visma Employee Management Oy, Visma Services Romania Srl, Visma Services Danmark A/S, Visma Services Public A/S and Visma Employee Management A/S. The BPO division will continue to operate under the new ownership with the brand name Azets.

The net consideration for the sale was NOK 4 394,6million, of which NOK 266m is payable in March 2017 and recognized in the balance sheet under other current assets and NOK 400m is paid in kind and recognized in the balance sheet under other long term receivables. Remaining consideration was paid in cash upon closing.

In Visma AS' consolidated financial statement, the gain from the sale is 3 337,1 million. The BPO division is presented in the consolidated financial statement under discontinued operations.

ALTERNATIVE PERFORMANCE MEASSURES

General information

Visma Group's condensed interim financial statements are prepared in accordance with International Reporting Standard IAS 34 *Interim Financial Reporting* as issued by the International Accounting Standards Board (IASB) and as adopted by the European Union (EU). Additionally, selected alternative performance measures are provided by the management in this report to allow the reader to gain a better understanding of the Group's underlying performance. The alternative performance measures provided may be defined or calculated differently than for other companies.

EBITDA / EBITA / EBIT

EBITDA is defined as Earnings Before Interests, Tax, Depreciation and Amortization and is an indicator of the performance of the underlying operations in Visma Group. EBITDA margin is presented as EBITDA as a percentage of Operating Revenues. In addition to EBITDA, management also present EBITA which is defined as EBITDA less Depreciation as well as EBIT / operating profit defined as EBITA less amortization.

EBITDA growth is presented for the current quarter, defined as the percentage growth over EBITDA in the same quarter last year. EBITDA growth is also presented on a year-to-date basis, defined as the percentage growth over EBITDA for the corresponding period last year.

SaaS Annualized Repeatable Revenue (SaaS ARR)

Software-as-a-Service ("SaaS") solutions are an important growth area for Visma. Unlike traditional on-premises solutions that are locally installed, SaaS Solutions are centrally installed in datacentres run by either Visma or third party providers, and made accessible to the customer through a "thin client" such as a web browser or mobile app.

SaaS ARR measures the full monthly value of committed recurring and repeatable revenue base from the existing SaaS customer base. It is a forward looking indicator of future repeatable revenue from the existing customer base. ARR is always measured at full monthly value, which is multiplied by 12 to arrive at an annualized value.

Customer Contracts

The number of customers that have a support, subscription or maintenance agreement. A customer may be counted several times between licensing systems, due to acquisitions.

Number of e-invoicing transactions

The number of e-invoicing transactions processed through Visma's e-invoicing hubs. SaaS e-invoices is an important growth area for Visma.
